

## CNOR Prep and Review Course

This two day course is designed to prepare perioperative nurses to take the CNOR exam and to demonstrate clinical competence and knowledge of practice standards.

### Course Benefits:

The one thing that we are most proud to deliver as a part of this class is our personalized study plan. You'll leave this class having learned exactly how the writers of the exam go about creating the questions, where they go to source their information, and how you personally can best use that knowledge to study. In addition, you'll have taken seven tests over the two days of class that reflect the content and style of the exam to better give you a feel for what it's like to apply these skills in practice. After you attend, you'll have access to a recording of the class for 120 days and an additional 200 practice questions to help you prepare for the exam. If at any point you need any more help, do not hesitate to call or email!

The CNOR exam is a perioperative exam, covering preoperative, intraoperative, and postoperative nursing. Since many nurses specialize in only one of these areas, it is vital to understand the rationale behind the entire perioperative nursing process from start to finish. We will discuss several topics over the two days of class; all aspects of sterilization the safe administration of anesthesia, the nurse's role as a patient advocate, and the professional nurse's responsibilities both ethical and legal, all from the perspective of the perioperative nurse. The discussion of each topic that we present is carefully and consistently tailored to reflect the most up to date version of the exam. This class will help you develop not only the understanding that you will need to pass the exam, but also develop confidence and clinical competence in your own nursing practice.

This nursing continuing professional development activity was approved by the North Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

3:45 - 4:55	Trauma Surgery

Park in the front of the hospital on the right hand side. There are no fees to park.

Enter the hospital through the main entrance. Walk straight ahead, passing the reception desk on your right and the elevators. Take the stairs located on the right side, going down one flight. Follow the ceiling signs directing you to North Conference Rooms 1 and 2.

This is an interactive course. You will complete six modules and take seven practice tests over the two days.

After class, you will receive 16.0 ANCC approved contact hours and access to a recording of class for two months.

All required hand outs will be provided during class. It is not required for class but I recommend access to a good text book and the AORN Recommended Standards of practice aid your study.

You will learn during class how to focus your study and improve your areas of opportunity. I recommend you schedule your exam the month following The CNOR Prep and Review Course.

Cheshire Medical Center  
580 Court Street, Keene, NH 03431
